# Massachusetts Acute Hospital and Health System Financial Performance

Fiscal Year Data through December 31, 2019

Independent System Affiliated Hospitals

December 31, 2019

### **About this Report**

The Center for Health Information and Analysis (CHIA) reports on the financial performance of the Commonwealth's acute care hospitals, associated hospital health systems (HHS), and affiliated physician organizations. This report provides a quarterly update on profitability, liquidity, and solvency for the period ending December 31, 2019. Data regarding HHS and physician organizations help develop a more complete understanding of the financial performance of an acute hospital in the context of the larger health system within which it operates. This report includes 21 of the 22 HHS required to submit data. Trinity Health did not submit the required HHS data; however, Trinity did submit hospital and physician organization data. Steward Health Care, Shriners Hospitals for Children and Tenet Healthcare are not included in this report as those organizations have a December 31 fiscal year end and as such, the data is not due until April 10, 2020. For most of the hospital health systems included in this report, this data reflects the first quarter results and may not be indicative of the final annual financial performance.

#### **Key Findings**

#### **Profitability - Hospitals**

Overall acute hospital profitability<sup>1</sup>, as measured by the median total margin, increased by 2.4 percentage points in comparison to the same period of the prior year. This change was mostly influenced by non-operating performance, as operating margins decreased for most cohorts. All four hospital cohorts<sup>2</sup> experienced an increase in median non-operating margin. In contrast, the median operating margin for 3 of the 4 cohorts decreased year over year.

The AMC<sup>3</sup>, teaching hospital, and community hospital cohorts all increased in overall profitability, while the community-HPP cohort experienced a decrease in profitability between last year's period and the current period.

#### Liquidity

All hospital cohorts reported a median current ratio above 1.0, an indication that they have sufficient current assets to meet current liabilities. Three hospitals reported ratios below 1.0, but all are part of larger health systems. None of the 21 hospital health systems that reported data had a current ratio below 1.0.

# Solvency

A negative net asset position indicates that total liabilities are greater than the hospital's total assets. One hospital reported negative net assets in the current period. 20 of the 21 hospital health systems that reported data reported positive net assets.

Statewide Median 0.9% 4.2% 3.3% AMC 3.9% 4.1% 5.8% Teaching Hospital 5.4% -0.7% 7.9% Community Hospital 2.0% 1.0% 2.7% Community-HPP 4.6% 3.0% 2.8%

December 31, 2018

December 31, 2017

<sup>&</sup>lt;sup>1</sup> Profitable or profit indicates an excess of revenues over expenses.

<sup>&</sup>lt;sup>2</sup> Acute hospital cohort designations are Academic Medical Center (AMC), Teaching Hospital, Community Hospital, and Community-High Public Payer (HPP). Specialty Hospitals are not considered a cohort. For further descriptions of the cohorts and specialty hospitals, see the <u>Technical Appendix</u>.

<sup>&</sup>lt;sup>3</sup> Academic Medical Center

## Total Margin of Hospital Health Systems, Acute Hospitals, and Affiliated Physician Organizations

Note: Some affiliated physician organizations had margins of <-25%. In order to display all entities in one graph, there is an axis break at -25% to account for those organizations. For more details, see the databook.

#### Profitability – Hospital Health Systems and Physician Organizations

Of the 21 hospital health systems that reported data, 17 reported a profit. All four of the systems that reported a loss also reported a negative operating margin. The majority of HHS affiliated physician organizations (40 out of 47) reported a net loss.
